DINING CAPACITY **150**

END TIME **Late (up to 2am)**

DESCRIPTION

Accessed through a private gate that leads to a tree-lined driveway, the property consists of two adjacent ibithenco style houses. The smaller finca (3 bedrooms) is approximately 800 years old, retaining many of its original features, including the wonderful Sabena tree ceiling and white walls, reflecting all that is charming about Ibiza. The larger of the two houses (3 bedrooms) was designed by the famous architect Rolf Blakstad and features polished limestone floors, ornamental fountains and large rooms and balconies with stunning views. The spacious living room, with its centrepiece fireplace, opens onto a beautiful Moroccan garden on one side and onto the sea-facing terrace on the other.

All around the villa you will find fragrant herbs, mature olive and palm trees and, if in season, heavenly fruits on the pomegranate, fig and plum trees. The infinity pool with its decked lounge area and chic sails for shade is an ideal place to forget the cares of the world.

Casa la Vista is the perfect heaven for your stay in Ibiza with space, luxury and charm all in one.
